## Read It, September 2015

Figure 1: Word Cloud

## **Books Completed in September**

Here's the final tally:

- The Annihilation Score by Charles Stross
- Raising Steam by Terry Pratchett
- Both Flesh and Not by David Foster Wallace (unabridged audiobook on CD)
- Of Course You End Up Becoming Yourself: A Road Trip with David Foster Wallace by David Lipsky
- *Jem* by Frederik Pohl
- Lucky Starr and the Oceans of Venus by Isaac Asimov (as Paul French)

The *Lucky Starr* novel is a hoot — very short, very dated, but fun. It would make a great radio drama, and I could do this sort of thing with a published work that is over 60 years old, if not for our endlessly expanded copyright law.

Meanwhile, I've started on *NeuroTribes* by Steve Silberman, which so far is fascinating. I have lots more books on deck. Onward with October!
